

UNAUDITED RESULTS FOR THE SIX MONTHS ENDED 31 AUGUST 2025

Report to Shareholders for the six months ended 31 August 2025

This condensed interim financial report represents the first set of published interim results by Arbitrage Holdings Limited ("the Company" or "the Group") since the Company's listing on the Cape Town Stock Exchange on 6 December 2024, covering the six-month period from 1 March 2025 to 31 August 2025. The Group continues to progress through its establishment and build-out phase as it positions itself to unlock the value inherent in its underlying coal and energy investments.

During the period under review, the Group did not yet generate trading income. The reported operating loss of R10.6 million for the six months predominantly comprises a provision for executive remuneration, director fees and professional and regulatory costs associated with maintaining a listed platform and advancing the Group's strategic initiatives. These costs are viewed by the Board as a deliberate and necessary allocation of capital to support the Group's future growth, governance and execution capability.

The Group's statement of financial position remains dominated by its coal and energy-related investments and project work-in-progress, with invested companies of approximately R1.12 billion and total assets of approximately R1.17 billion as at 31 August 2025. This reflects the continued focus on assembling and preparing strategic assets for development and value realisation over the medium to longer term.

A key focus area for the period under review, and going forward, is the continuation of positive capital-raising initiatives to provide the financial resources required to unlock these coal and energy assets. The Board remains actively engaged with investors and funding partners to secure appropriate capital structures and financing solutions aligned with the Group's development timetable and risk profile. Shareholders are further advised that positive progress has been made by Beaumont Private Equity (Pty) Ltd in securing a contractual extension of the obligations pertaining to the Share Subscription and the Call Option Agreements with Grammatikos Group for the acquisition of the controlling stake in the Vogelfontein Mining project, which is indicated to be concluded shortly. Accordingly, no adjustment has been made in relation to the underlying asset for the purpose of these interim results.

The Company and Board wish to express their appreciation to the Group's core supporting shareholders and funding partners for their continued commitment and support throughout this formative phase of Arbitrage's life as a listed company. Their ongoing engagement and participation have enabled the Group to maintain momentum on its strategy despite the early-stage earnings profile reflected in these interim results.

It remains the strategic intention of the Company and the Board to unlock and grow long-term value for all shareholders through disciplined capital allocation, careful development of the Group's coal and energy interests and continued strengthening of its governance and management capacity. The Board will continue to communicate progress as key milestones are achieved.
